

**POSITION:** Actuarial Analyst  
**LOCATION:** Brussels

---

### DESCRIPTION OF THE POSITION

Our client is looking for an Actuarial Analyst who will join the actuarial team which performs the actuarial valuations of the five pension funds and which performs the IAS19 valuations and related reportings.

This is a full-time position based in Brussels.

You will establish contacts with worldwide subsidiaries of the company on a regular basis to obtain information necessary for the actuarial valuation of their pension commitments. You will conduct these actuarial valuations in collaboration with your colleagues and will use the in-house calculation and reporting tools.

For the IAS19 reporting you will work in collaboration with the accounting department.

In addition, you will be involved in the actuarial valuations and related reporting of the technical provisions and funding valuations of the pension funds.

---

### PROFILE

- University degree or equivalent (Mathematics or Actuarial Sciences). Two to ten years of experience are required.
- Knowledge of English as well as French or Dutch is required.
- Relevant working experience of Excel, Access, Word and MS Office is required.
- Capacity to learn new computer languages and to work with databases.
- Imaginative (able to develop new working methods, templates), well-organized, autonomous, common sense. Able to manage different problems at the same time. Good team spirit.
- Respectful of ethics and confidentiality.
