

POSITION: Life Risk Expert
LOCATION: Brussels

DESCRIPTION OF THE POSITION

Our client is looking for a Life Risk Expert to join its Risk Management Department.

The tasks of the Life Risk Expert will be as follows:

- Measuring, supervising, optimising and reporting on the different components of Life Technical Provisions as part of Solvency II
- Measuring, supervising, optimizing and reporting on the different components of Risk Capital models for life risks
- Implementing changes to the approved model, respecting local governance
- Ensuring the maintenance and optimisation of the actuarial platform and proposing model solutions for internal clients
- Contributing to the definition of local underwriting risk guidelines and ensuring compliance with the underwriting risk guide
- Implementing Enterprise Risk Management to define, measure (stress tests, sensitivity analysis and back testing analysis) and optimise the life risk profile for ORSA purposes
- Ensuring the entity's compliance with operational limits
- Providing inputs for strategic studies, as well as various reports (regulatory and internal SII reports)
- Being the second line of defense in underwriting, pricing, design of new life products and reinsurance processes, depending on the impact on venture capital and risk advisory limits
- Spreading the risk culture within the company.

PROFILE

- Master's degree in Mathematics, Physics, Actuarial or Engineering
- At least five years of experience in life risk analysis (modeling, reporting ...) and / or in value analysis (technical provisions, present value of future benefits and new business value)
- Quantitative approach, practical intelligence and rigor
- Dynamic, proactive and time-oriented
- Team spirit
- Excellent knowledge of French and / or Dutch and fluent in English
- SAS is an asset.
