

POSITION: Life Risk Management Senior Expert
LOCATION: Brussels

DESCRIPTION OF THE POSITION

Our client is looking for a Senior Life Risk Management Expert for his Risk Management department. In particular, the Expert will be in charge of the following tasks:

- Understanding and optimising life risk modeling within the Solvency II internal model
- Contributing to the approval process for any new product or price
- Tracking exposures for life risks
- Conducting projections of Solvency II indicators and participating in cross-cutting projects on stress tests and regulatory exercises
- Participating in the development of a Risk Appetite framework for life risks and actively participating in the improvement of the second line of defense
- Conducting second-line opinions on projects, changes impacting the Life business or its valuation in collaboration with the Actuarial Function (reinsurance, technical provisions, etc.)
- Monitoring changes in Solvency II regulations and assessing their potential impact
- Collaborating on topics related to life risks
- Contributing to the development and mentoring of less experienced members of the team.

PROFILE

- Master's degree in Actuarial Science
- 7 to 10 years of professional experience in risk management, product development, pricing or reporting in life insurance
- Good knowledge of Solvency II (Pillars 1 and 2)
- Good knowledge of life products
- Ability to acquire quickly an in-depth knowledge of new tools and techniques
- Ability to ensure consistently good quality work under all circumstances
- Good presentation and communication skills and customer orientation
- Good project management skills and ability to lead projects independently
- Team spirit and ability to coach a young team
- Proficiency in French, Dutch and English.
